PROFILE

Frontend Developer and UI/UX Designer with over 8 years of experience in digital products. Specialized in front-end development using Vue.js, HTML5, and CSS3, as well as design systems and advanced prototyping in Figma.

Experience collaborating with design and development teams on high-impact projects for LATAM and USA.

WORK EXPERIENCE

1950 Labs - Montevideo, Uruguay
2022 – Present

UI/UX Designer

- Developed the design system, wireframes, mockups, prototypes, and layouts using tools such as Figma, Adobe Illustrator, and Adobe Photoshop, working alongside design and development teams.
- Conducted A/B testing, reference research, and UX research.

Front-end Developer

- Developed a digital marketing product using Vue.js, applying HTML5, CSS3, and JavaScript. All developments were tested using accessibility tools and Cypress (unit testing).
